

Enquiry, Stillness, Teacher Codependence As Forms Of Bypass To Avoid The Descent of Consciousness

COURSE DESCRIPTION

This course was originally a post-graduate course called *Stillness as Bypass* that was designed as an antidote to bypass. I created it because I observed Mentor graduates were stuck in bypass. The bypass that I observed in BCT practitioners manifest in three ways: Enquiry into Tides, the Misuse of Stillness, and Mentor Teacher Codependence.

Each form of bypass weakens the will, which prevents the cellular implosion of Dynamic Stillness and the enfleshment of Pure Breath of Love.

Our consciousness is liberated from narcissism only *after* Dynamic Stillness *descends* into the body implodes into our cells, and Pure Breath of Love escorts us on our Grail Journey to redeem the shadow elements of our Core Erotic Wounds. Enfleshment is the fruit of embodied descent of consciousness that we harvest during our Grail Journey.

The Class examine ways that stillness is co-opted by the Superego to avoid the inherent discomfort of an embodied union with Love, which effectively prevents the further evolution of consciousness.
